## PLASSFENCE – Migration Fence

Plasson's migration fence is designed to evenly distribute birds while maintaining proper airflow. Our extensive knowledge of plastic injection technology and livestock equipment allows us to provide an unrivaled solution in terms of stability, installation and durability.

### Advantages:

- Flexibility to configure into different shapes and lengths
- Sturdy design prevents fences from tipping over
- Simple cleaning and sanitization
- Easily and stored
- Specially designed connectors create the required gaps for feeding and drinking lines
