## Non Electrified Anti Perch System Instructions

### Non Electrified Anti Perch System

PLASSON Non Electrified Anti Perch System complies with the global welfare approach by preventing birds from perching on nipple lines without the use of electric shock.

This system presents a cost effective solution which can be easily installed on new or existing nipple lines.

02205855 - Non-Electrified Anti-Perch 60m Kit

02205857 - Non-Electrified Anti-Perch 30m add-on Kit

#### **Note!**

- Install every second suspension clip facing in opposite direction
- Use the winch to apply tension until spring stretches to approximately 8.5cm long  
Do not over tighten to prevent the line from twisting
- Do not use impact drivers when tightening the screws
