PLASSON Poultry Feeding Systems

PLASSON offers a full line of feeders for broilers, breeders, poults, and turkeys that help producers improve feed conversion and reduce mortality, condemnations, and labor costs. Every feeder is designed to provide reliable performance with low maintenance requirements

Broiler Feeders

PLASSON broiler feeders feature an innovative design for better animal welfare and excellent feed conversion. Grilled and grill-less feeders are available with both automatic and manual shutoff options. The latest grilled pan primary feeder is the ideal option for heavy birds.

Breeder Feeders

With its strong, durable, grill-less design, the PLASSON breeder feeders give easy feed access for uniform feed distribution.

Turkey Poult Feeders

The grill-less turkey poultry feeding pan allows poults to easily reach the feed even during the first days, and the high flooding design stimulates growth.
