

Quick Connect

For Detachable Rigid Riser Tubes

Pressure Management, Simplified: Clear, easy-to-clean detachable tube offers a game-changing solution for poultry growers.

Advantages

- **Maintenance:** Effortless detachment simplifies cleaning.
- **Operational:** Ability to remove tubes prior to bird processing without disrupting water supply.
- **Performance:** Transparent tube provides a clear view of the float ball for accurate water supply monitoring.
- **Longevity:** Durable design prevents damage and extends product lifespan, reducing maintenance costs.
- **Compatibility:** Adapts to all flex tube nipple systems on the market for seamless integration and flexibility.

Technical Specifications

- Available in 16" and 24" clear rigid tube lengths
- Adapts to barbed, slick or 1/4" male threads
- Pressure tested up to 80 PSI during flush mode
