

Red Nipple

The **Plasson Red Nipple** provides superior longevity with an unmatched flow range to maximize broiler growth. Its excellent side action sensitivity enables day-old chicks to **start strong and stay healthy**. Based on research and field experience, its unique features make the Red Nipple an ideal solution for all broilers.

Advantages

- Exceptional product performance and durability
- Widest flow rate range for non-tray nipples
- Superior side action sensitivity for excellent chick starts
- Dual sealing technology ensures drier litter
- Enhances ABF and NAE programs

Red Nipple Specifications

Volume	25-105 ml/min
Recommended number of birds per nipple	10-12
