

## Rotem One

### Climate Control Taken to a New Level

The **Rotem One**, Rotem's most advanced climate control unit, provides poultry (broiler, layer, & breeder) and livestock farmers with vastly expanded capabilities.

Featuring all the functionality of Platinum Pro Controllers, the **Rotem One's** enlarged 15.6" screen provides an intuitive, easy-to-use interface that brings all the advantages of touch screens to your farm. The Touch screen brings together mission critical data in one easy to read screen. Defining functions is done directly from a large screen designed for its ease of use. The sophisticated interface is intuitive, enabling a simplified set up.

**Rotem One's** enclosure was designed to facilitate installation and maintenance, while a switch guard keeps toggle switches securely in place.
